MEMORANDUM FOR: Chief, Physical Security Division

25X1

FROM:

[REDACTED]
Chief, Industrial Security Branch

SUBJECT: SCI Shared Facilities, Carve Outs, et al. (U)

REFERENCE A. DIS Memo and list, dated 3 Nov. 1980 (C)
B. SECOM Memo, dated 16 March 1981 (U)

25X1

1. The list of [REDACTED] contractors in Reference A are facilities known to DOD where CIA carve outs are located. When Defense Contract Administration Service (now DIS) inspectors are denied access to a vault, area, safe, or safe drawer because the contractor identifies it as a carve out, the DCAS reports note the specific location and carve out custodian. (The identity of the carve out sponsor is not normally disclosed.) When the report reaches DIS/Industrial Security Headquarters, [REDACTED] of that office calls his various U.S. Government contacts to identify the carve out. In effect, this relieves DIS from inspection responsibility for that carve out, and serves to keep the contractor honest.

25X1

2. The list is by no means current. [REDACTED]

[REDACTED] DIA has no cognizance whatever over these carve outs, nor do they share any cognizance with CIA. They do not inspect, survey, or report on our carve outs. They may have cognizance of an SCIF vault, etc., and inspect an area where our carve out is

B. Page 5, paragraph B.1-7: recommend that "security approved" be further defined as appropriately security approved by the Customer, or words to that effect. (c.g., see page 15, paragraph 6.b on Destruction).

D. Page 11, paragraph 2: Customer approved security container - shouldn't this be GSA-approved security container?

F. Page 12, paragraph 4e: The SSPC and COMINT/TK Manual call for inventory every 6 months.

G. Page 15, paragraph 6: suggest addition of 1. 25X1

J. Page 19, paragraph B.1: ditto comment B.
